ABOUT US

At Delta Almas Trading Est, we are dedicated to being the foremost provider of industrial materials, committed to delivering top-quality products & exceptional service.

With a focus on reliability and innovation, we cater to diverse industries, offering an extensive range of materials tailored to meet various industrial needs.

VISION

To become the premier provider of industrial materials, distinguished for our commitment to quality, innovation, and customer satisfaction, setting the benchmark in the industry.

MISSION

To consistently deliver superior industrial materials that exceed industry standards, foster enduring partnerships with clients through comprehensive solutions and exceptional service, while continuously innovating to stay ahead in the market.

Loctite

With a focus on reliability and innovation, we cater to diverse industries, offering an extensive range of materials tailored to meet various industrial needs.

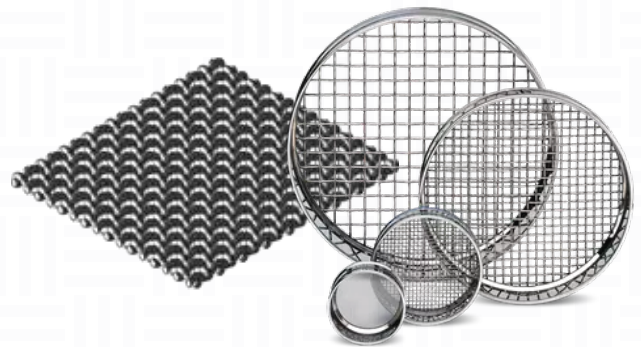

Gasket Sheet

Engineered to endure extreme temperatures and pressures, our gasket sheets provide a dependable sealing solution in critical industrial environments. These sheets prevent leakage, offering resilience against corrosive substances & maintaining operational efficiency.

Stainless Steel Mesh

Corrosion-resistant and highly adaptable, our stainless steel mesh serves various industrial purposes such as filtration, reinforcement, and screening. With its durability and flexibility, it offers superior resistance to corrosion, making it ideal for demanding applications.

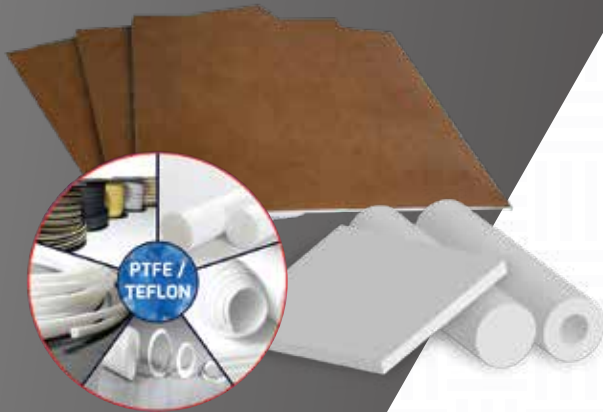

Roller Chain

Our roller chains are meticulously designed for smooth and efficient power transmission within machinery and equipment. Known for their durability and reliability, these chains ensure consistent and precise operation, crucial for maintaining production quality.

PU Hose

Flexible and abrasion-resistant, our PU hoses are suitable for conveying a wide range of fluids in industrial settings. Their resilience against wear and tear, coupled with flexibility, makes them ideal for applications demanding reliability and adaptability.

PTFE Teflon Sheet

These non-stick & high temperature resistant sheets are ideal for applications requiring chemical resistance and low friction. With their versatility and durability, they are used in various industries for their exceptional properties.

Cable Ties

Our cable ties offer reliability and durability for effective cable management & bundling. With different sizes and strengths available, they ensure secure organization & support in various industrial environments.

Coupling

Designed to connect rotating shafts with precision, our couplings ensure smooth power transmission in machinery, minimizing vibration and wear, thus extending equipment life & optimizing performance.

Safety Products

Our comprehensive range of safety equipment ensures workplace safety & compliance with industry standards. From protective gear to safety signage, we prioritize the well-being of workers in diverse industrial settings.

Power Tools

Robust and high-performance, our power tools are designed for cutting, drilling, and shaping materials in industrial operations, delivering consistent and reliable results in demanding environments.

Hand Tools

Precision-engineered and durable, our hand tools facilitate various industrial tasks with efficiency and accuracy, ensuring reliability and ease of use in different applications.

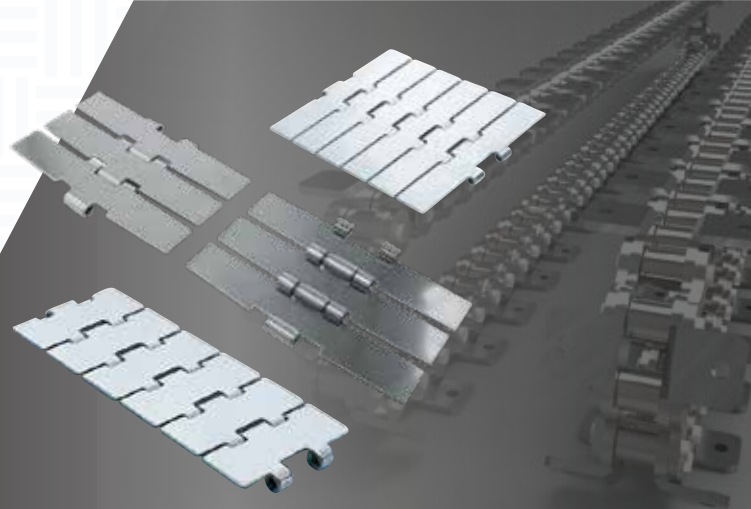

Bearing

Our bearings offer durability and precision, vital for smooth operations in machinery and equipment across various industries. They ensure minimal friction & optimal functionality for enhanced performance.

Conveyor Chain

Designed for efficient material handling, our conveyor chains are reliable & durable, ensuring smooth movement and transfer of materials in industrial processes.

Rubber Sheet

Versatile and resilient, our rubber sheets serve as effective sealing, insulating, and protective solutions in diverse industrial applications, offering durability and flexibility.
